Hi Alan –

I asked Joe Ebersole and EPA-WED is not doing any fish herbicide work.

I am sending the RARE QAPP, hopefully that will work for your colleague.

Jana

Subject: herbicides and effects on fish

Jana,

Do you know if anyone in the Corvallis Lab is doing or has done research on the effects of herbicides on fish and other aquatic life in coastal streams in Oregon. If so could you send me contact information.

Hope all is well. I am going to try to make the next RARE call. Unfortunately, CZARA has taken all of my work time.

Also, do you have an e-copy of the RARE sampling plan. One of my colleagues working in the Yakima Basin would like to take a look at it.

Thanks.

Alan
